It is a condition of the Special Program (subclass 416) visa that visa holders have adequate health insurance for their entire period of stay in Australia.

Bibber will organize appropriate insurance on your behalf (**at your own expense**). As this insurance cannot be obtained prior to visa grant, you are required to lodge the following declaration with your visa application.

The declaration asks you to confirm that, for the period of your intended stay in Australia, you will hold adequate health insurance.

If you do not provide this declaration, you may not be granted a Special Program visa.
